Subject: Agenda and Speakers for Great Lakes Public Forum + PROP
GLPF Program draft 2016-07-20.pdf

Chris,

As discussed, attached is a draft public-friendly version of the program/agenda for the Great Lakes public forum. Mike would like something like this up on binational.net as soon as we can manage it. He'll be sending this to Cam via email soon (you'll be copied I think). In parallel we're sending the file over to ECCC production services so that they can give us a better designed product, so your focus on the text would be ideal.

Also, by way of this email, I'm asking Ash to send over the Mike-version of the PROP that we've distributed internally, along with a track changes version that clearly shows the differences between the last GLEC Secretariat version, and the Mike version.

Cheers,
Carla
